Willing to relocate: Anywhere

Work Experience

Web Developer

ThinkBit Solutions - Quezon City

April 2022 to Present

I am working here as a Web Developer. I mainly use Laravel for my tasks. I worked both in the front end and backend. I use MYSQL for the database.

Freelance Web Developer

Freelance - Remote

April 2017 to Present

I also do freelance web development on various platforms and sometimes through connections. I did various type of websites but most of it are e-commerce and informational websites. I also created kiosk. I mainly use Laravel in development of this projects.

Software Engineer

Aspire Outsourcing Services Phils Inc. - Fort Bonifacio

September 2020 to February 2022

I worked here as a Software Engineer at this company. My job is very crucial, because I there must be no line of error. I also sometimes do Frontend little by little. Most of my projects were made using Laravel.

Web Developer

Dynamic Markups IT Solutions - Rosario

August 2019 to September 2020

I worked here as a Backend Web Developer at this company. Most of the task revolves around economical transactions, meaning it is about money. My job is very crucial, because I there must be no line of error since it is about money. I also sometimes do Frontend little by little because I want to be a Full-stack Developer soon. Most of my projects were made using Native PHP and sometimes Laravel.
